SUMMARY

I am a first-year Computer Science student at Universitas Syiah Kuala with a deep interest in Software Engineering. Through student organizations and both national and international competitions, I have gained real experience developing applications and building functional, efficient solutions to tackle real world challenges. Every expert was once a beginner, and I am dedicated to continuously learning and engineering technology that makes a meaningful impact.

EDUCATION

Syiah Kuala University

Bachelor of Science in Computer Science

Banda Aceh, Indonesia

Expected Graduation, May 2029

- **GPA:** 3.95/4.00
- **Related Coursework:** Data Structures & Algorithms, Database Systems, Computer Networks, Discrete Mathematics, Programming Fundamentals, Statistics & Applications

SMA Laboratorium USK

High School Diploma, Science Major

Banda Aceh, Indonesia

July 2022 – July 2025

- **GPA:** 95.39/100.00
- **Honors:** Valedictorian
- **Activities:** Active member of the Chess Club and school representative for the Mathematics and English Olympiad

EXPERIENCE

Student Executive Board (BEM)

Social Action and Relations Staff

Banda Aceh, Indonesia

April 2026 – Current

- Serving as the Lead Project Officer for the "Social Care Donation" program, organizing relief efforts for disaster-affected communities
- Coordinated a targeted donation drive and relief initiative to support victims of a recent fire disaster in Lhokseumawe

PROJECTS

MindGuard

Sole Developer

Banda Aceh, Indonesia

Mar 2026 – May 2026

- Acted as the sole developer within a multidisciplinary team to engineer a browser extension using Vanilla JS and Manifest V3 to provide real-time content filtering for student mental health support
- Implemented a local Regex engine and dynamic DOM manipulation to mask distressing content while maintaining 100% data privacy
- Recognized as a Finalist at the 2026 UGM Public Health Hackathon for bridging informatics and digital well-being

Glucoscan

Sole Developer

Banda Aceh, Indonesia

Dec 2025 – Mar 2026

- Acted as the sole developer within a multidisciplinary team to engineer an Android app to help Diabetes patients monitor their daily sugar intake
- Integrated Google ML Kit OCR and custom Regex using Kotlin and Jetpack Compose to instantly extract nutritional data from food labels
- Awarded 2nd Place at the National Scientific Paper Competition (LKTIN) by IYSA for bridging informatics and healthcare through the app

EscapeDisaster

Sole Programmer

Banda Aceh, Indonesia

Aug 2025 – Sept 2025

- Acted as the sole programmer within a multidisciplinary team, collaborating with a digital artist to develop a mobile-based educational game using the TurboWarp engine to teach early disaster self-rescue procedures
- Integrated interactive UI/UX and time-limited quizzes to simulate critical decision-making during emergency scenarios like earthquakes and tsunamis
- Competitive submission for the Disaster Education Media Competition (DEMC) U-DARE 3.0 organized by TDMRC USK.

WindSense	Banda Aceh, Indonesia
<i>Co-Lead Developer</i>	<i>May 2024 – Sept 2024</i>
- Co-led the software and hardware integration for an IoT-based smart wind monitoring and early warning system featuring mobile alerts - Programmed the microcontroller using C/C++ and Arduino to accurately process real-time environmental sensor data - Awarded the Gold Medal at the International Indonesia Inventors Day 2025 for technical innovation and functional design	

SKILLS

Programming: Python, C/C++, Kotlin, SQL, HTML/CSS, JavaScript
Tools: Git, Android Studio, Arduino IDE, Linux (Mint/Terminal), Jupyter Notebook
Spoken Language: Indonesian (Native), English (Professional Working Proficiency)

COMMITTEES & INVOLVEMENT

Informatics Festival USK	Banda Aceh, Indonesia
<i>Seminar Division Committee</i>	<i>May 2026 – Current</i>
Managing the seminar agenda and leading the guest speaker invitation process, from initial outreach to event-day coordination	
Mathematics and Natural Sciences Student Sports Week USK	Banda Aceh, Indonesia
<i>Chess Tournament Committee</i>	<i>May 2026 – June 2026</i>
Coordinated tournament brackets and participant registrations, and served as a live match arbiter to adjudicate games and enforce official regulations	
Google Workshop: The Future of Learning Workshop	Banda Aceh, Indonesia
<i>Event Committee</i>	<i>May 2026 – May 2026</i>
Facilitated event logistics and operations for a large-scale Google technology workshop, ensuring a seamless experience for an audience of over 300 university professors and hundreds of students	

CERTIFICATIONS

Dicoding Indonesia	Online
- Fundamentals of Artificial Intelligence - Fundamentals of Data Science - Fundamentals of Structured Query Language (SQL) - Introduction to Python Programming	<i>Feb 2026</i> <i>Feb 2026</i> <i>Feb 2026</i> <i>Feb 2026</i>

EXTRACURRICULAR ACHIEVEMENTS

4th Place, Chess Championship	Banda Aceh, Indonesia
Jeumpa Puteh Festival, SMAN 1 Banda Aceh	<i>Feb 2025</i>
Silver Medalist, English Olympiad	Online
Indonesian Youth Science Competition, POSI	<i>Oct 2024</i>
Gold Medalist, English Olympiad	Online
Merdeka Science Competition, POSI	<i>Aug 2024</i>
Silver Medalist, Mathematics Olympiad	Banda Aceh, Indonesia
Aceh Science Competition, UIN Ar-Raniry	<i>Feb 2024</i>
2nd Place, Chess Championship	Banda Aceh, Indonesia
GM Utut Adianto Cup U-17, Aneuk Nanggroe Chess Club	<i>Jan 2024</i>
Gold Medalist, English Olympiad	Online
Aceh Science Olympiad, POSI	<i>Dec 2023</i>
